

27 February 2026

Eucalyptus spokesperson

Dr Coatsworth has been engaged by Eucalyptus to provide advice on clinical governance and the Australian healthcare system since around mid-2023.

The terms of his compensation are confidential, but he is not a paid spokesperson nor is he paid to endorse Eucalyptus or any medication. Dr Coatsworth's public views are his own, and those views are irrelevant to Eucalyptus practitioners' clinical decisions to prescribe medications to their patients.

It is a matter for Dr Coatsworth to make whatever disclosures he considers appropriate.
