

Statement from Nine spokesperson:

Nine has communicated some regional TV News changes to its team as part of its strategic transformation program. These difficult yet necessary decisions ensure Nine is able to withstand external challenges, while maintaining a commitment to both the Northern Territory and Gold Coast regions.

9News remains the only free-to-air and bespoke news bulletin on the Gold Coast, while in Darwin we will retain a reporter and camera operator on the ground to tell the Territory's stories to a national audience.

Through redeployment opportunities and current vacancies, Nine has significantly reduced the number of people impacted by this decision and we are supporting those employees through this process.
