

**07-July-2025**

**Response from an ABC spokesperson,**

A number of regulars who appear on our programs have commercial work outside their contributions to the ABC. We expect commercial arrangements to be declared if there's a perceived or real conflict with the content they provide for our programs. Toby Hagon reviews a range of vehicles from many car companies as part of his appearances as a motoring expert on ABC Radio. We've just been made aware of this matter and will be looking into it further.
