

25-August-2025

A statement from a Sky News Australia spokesperson,

The ABC has spent a decade trying to discredit Sharri Markson's reporting, including falsely dismissing her accurate investigation into Covid-19's origins as a conspiracy.

The ABC has a long history of anti-Israel bias and is in no position to lecture others on objectivity in journalism.

It should secure its own interview with Prime Minister Benjamin Netanyahu if it thinks different questions should be asked.
