

To make your very own camera like Big Ted's you will need; 2 small cardboard boxes (different sizes), 2 plastic lids, a ribbon, masking tape and paint.

STEP 1

Make the body of the camera by taping one box on top of another.

STEP 2

Tape the bottle top to the front of the camera to make your lens, flat side down.

STEP 3

Attach a piece of wool or ribbon around the camera and tape down the second drink bottle lid as the button on top.

STEP 4

Paint your camera. Your camera is ready, it's time to take some photos!

Are you ready? Let's be quick.
