

CREATE YOUR OWN FLOCK OUT OF POM POMS!

You will need:

Scissors
Cardboard
Ball of white wool
Glue
Wobbly eyes (optional)

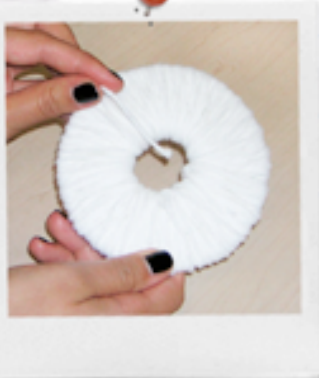

Instructions:

1 Choose your sheep, trace around the corresponding doughnut template on to 2 pieces of card and cut them out. Be careful when using sharp scissors – ask an adult to help.

2 Put the two pieces of card together then tie the end of the wool around them. Start passing your wool through the centre of the card and wind the wool evenly around the doughnut shape.

3 Keep winding the wool around your cardboard template until it is completely covered and there is hardly a gap in the middle anymore. The more layers of wool, the thicker and woollier your finished sheep will be!

4 Using scissors, carefully cut around the outside edge of the doughnut, freeing the ends of the threads. (It helps to get the scissors in between the two pieces of cardboard). This can be tricky so you may need help from an adult.
