

Tissue Paper & PVA Picture

To create Tissue Paper & PVA Picture you will need:
PVA glue, tissue paper, sticky backed plastic,
black felt-tip pen, water and white paper

Step 1

Add a bit of water to your PVA glue to make it runny. On the white paper draw something to make into your picture.

Step 2

Place the sticky backed plastic over your picture and stick it at the top corners of your picture. Peel off the paper cover of the plastic and stick it down. Cover the plastic with PVA Glue.

Step 3

Tear up the tissue paper and colour in your picture with it by sticking strips down.

Step 4

Cover the tissue paper with more PVA glue. When dry, draw around the picture with felt-tip pen.

Step 5

Peel your picture away from the table/card it is on.
