

How to Make Homemade Laundry Liquid and Powder

Homemade laundry liquid

Makes 25 litres

- 1 box Lux flakes (700gm grated soap)
- 1 cup Bicarbonate of Soda
- 2 drops of eucalyptus oil or tea tree oil

Put the Lux flakes, bicarb and oil into a large bucket (25L).

Add one litre of boiling water and using a hand blender, mix well and let stand overnight.

The next day add two litres of boiling water, blend again and allow to sit.

Keep adding water until the bucket is full.

Use a tablespoon of mix per wash. Is suitable for both top loaders and front loaders.

Homemade laundry powder

- 1 box of Lux flakes (or 700gm of grated soap)
- 1 cup of Bicarbonate of Soda
- 2 drops of eucalyptus or tea tree oil

Put all ingredients into a blender and mix until fine.

Store the mix into an air-tight container.

To wash dissolve a teaspoon in a $\frac{1}{2}$ cup boiling water and add to laundry section of your washing machine.
