31-Oct-2026

A Reuters spokesperson

Reuters is committed to delivering unbiased and reliable news to the world, consistent with the Thomson Reuters Trust Principles. As part of our newsgathering, we occasionally pick up newsworthy images from those who witness or report on events unfolding on the ground, when we verify that those images accurately reflect the events depicted.

In 2025, we acquired some drone images from Mahmoud Al-Basos when we felt there was news value. We are not aware of any connection between Al-Basos and Palestinian Islamic Jihad. We have never commissioned or acquired images from Rahman Abu Odeh. Neither individual has ever been employed as a Reuters journalist.
