

Good morning

We refer to your recent enquiry concerning the asbestos insulation issue in the ACT and NSW in the 1960s and 1970s.

The descendants of the proprietors of “Canberra Asbestosfluf” wish to convey their genuine concern for those affected as a consequence of the insulation regime of that time.

They fully support every endeavour to be undertaken by the relevant government authorities and affected parties to achieve the best possible outcome for persons who may have been affected by this process.

The descendants do not propose to make any further public statement and request respect for their privacy.

Thanking you

The descendants of the proprietors of Canberra Asbestosfluf of the 1960's and 1970's
