

FIZZY & SUOS

Spin & Talk Game

MAKE YOUR GAME BOARD:

- Cut out the game circle.
- Glue it onto a piece of cardboard.
- Colour each section differently (you choose!)

MAKE THE SPINNER:

- Cut out the spinner.
- Glue it onto cardboard, then cut around the complete cardboard shape.
- Attach it to the centre of the game circle using a split pin (paper fastener), so it can spin.

HOW TO PLAY:

Each section has a question to help your child explore and discuss something interesting or new.

Ask children to think of a special interest, then spin and wait for the spinner to stop. Answer the question it lands on ... keep playing and talking until all the questions have been explored.
