## GAZA'S CHILDREN OF WAR

Series 2025: 1 x 30' | ABC TV

*“THERE’S NO CHILDHOOD LEFT IN GAZA”*  
*SIRAJ - 10 YEARS OLD*

For the one million children of Gaza growing up isn't guaranteed. Since the war began nearly two years ago, more than 18,000 Palestinian children have been killed. With no reliable source of nutritious food and water, life is a day-to-day prospect. Even trying to find food can be a deadly proposition. Reporter Stephanie March and a team of Gazan journalists collaborate, reporting through local voices to fill the gap left by media restrictions.
