

MAKE A FRUIT CAKE!

GETTING STARTED:

A cake made out of fruit is one of the best treats for your furry goat friends - or if you don't have goats, for you!

- You can use a variety of fruits that are in season like berries and melons in the winter, and citrus and stone fruits in the summer!
- We used a watermelon to form the base of ours!
- All you'll need is a large platter and all your fruits washed, cut and ready to go!

WHAT TO DO:

1. First collect all your fresh fruits from the garden or local grocery and make sure to wash them.
2. Cut your watermelon into three rounded tiers ready to form your fruit cake.
3. Stack the three layers of watermelon from biggest to smallest.
4. Cut the rest of your fruit into slices and wedges. Add slices of apple or any other fruit around the base of each layer. This will give the illusion of frosting!
5. Decorate your cake with other seasonal fruits like blueberries to give it a colourful touch! The more you can pile on, the better!
6. Finish it off with your own favourite flavours! Maybe drizzle a little fresh fruit juice and add mint leaves to garnish. YUM!

It is always a good idea to get a grown up to help when cutting your fruit!

GARDENING HACK!

Collect the goat poop from after the goat party and sprinkle it around the garden! It's a GREAT fertiliser for the garden!
