Step-by-step guide:

Step 1: Print out the templates

- Print out the dinosaur templates of your choice from the pages above

Step 2: Cut them out

- Carefully cut around the edges of each dinosaur template using scissors.
- Be sure to leave some space around the edges for decorating.

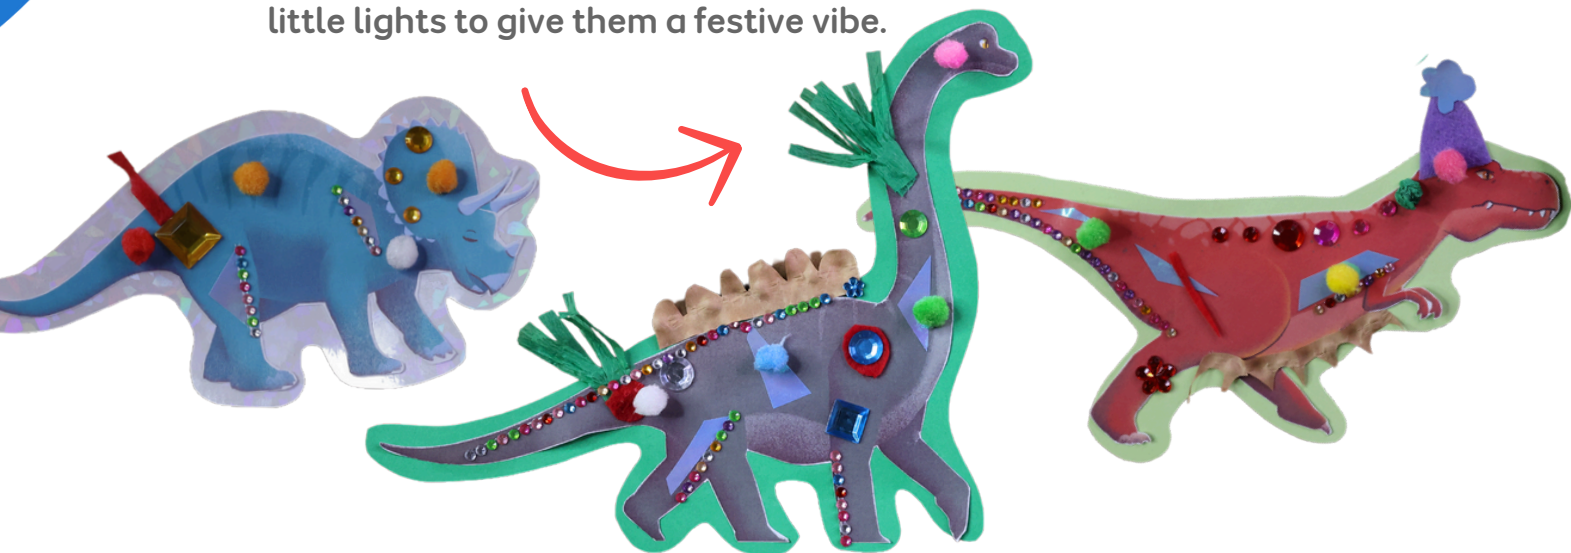

Step 3: Add a cardboard layer

- Cut a piece of cardboard a little bigger than your dinosaur template.
- Glue or tape the cardboard to the back of each dinosaur to give it extra sturdiness and make it stand out when hung up.

Step 4: Get creative

- Using any materials you have around the house to decorate your dinosaurs however you like (we used extra bits of cardboard, markers and stickers)
- You might like to add festive touches like hats, scarves, or little lights to give them a festive vibe.

Step 5: Thread it through

- Using a hole punch, make a hole at the top of each dino. Take a length of string and thread it through and tie it off.
- This will allow you to hang your dinosaur decorations on your tree or plant.

Step 6: Time to hang!

- Once everything is decorated and string is attached, hang your dinos on a tree, plant, or any spot you have!
