

Easy Space Picture

To create Easy Space Picture you will need:
black paper, coloured chalk, scrap paper,
sticky tape or round biscuit moulds

Step 1
Take your scrap paper and rub your coloured chalk over it to create 'chalk dust'.

Step 2
Take the black paper and place your sticky tape onto it. Now rub your finger in the chalk dust. Rub the chalk dust inside the sticky tape circle.

Step 3
Repeat step two to make more planets.

Step 4
Then dot white chalk over the black paper to make stars.

All that's left to do is Frame-it!
