Christmas With You

**Christmas With You
Deborah Cheetham**

**Can you find your way home Christmas night?
There is a star to guide you
It shines with the light I hold in my heart.
O can you find your way home Christmas night?**

**Can you find your way home Christmas Day?
There's so much more I want to tell you
so much more to say
O can you find your way home Christmas Day?**

**We've been apart for so long now
This year has come and gone somehow and
suddenly the summer days are here bringing Christmas**

**Can you find your way home Christmas Eve?
I had never thought you would leave
perhaps a star can guide you home this year
light the way and draw you near
How I wish that you were here
for Christmas, Christmas eve**

**I need no gift beneath the Christmas tree this year
Christmas with you is all I truly need my dear**

Dedicated to everyone who has been parted from those they love in this year of loss and chaos.
