## Make Chinese New Year Banners!

**You will need:**  
Gold card, scissors, glue, a black felt-tip pen, gold string and a grown-up to help you!

**1** Cut out your three banners. Stick them onto gold card.

**2** Carefully, trace over the faded writing with your black felt-tip pen. Now, trace over the decorative border on the rectangle banner.

**3** Make a hole in the top corner of each diamond banner; thread through the gold string and tie in a bow.
