

Magnetic Bug Race Track

To create a Magnetic Bug Race Track you will need:
magnets, fluffy ball, googly eyes (or white circles with dots on),
black paper, scissors- warning and grey paper

Step 1

Put glue on one of the magnets. Stick your fluffy ball to the magnet. Stick the eyes to the fluffy ball.

Step 2

Fold the black paper in half lengthways. Cut the paper in half along the fold. Glue one half on the black paper to one side of the grey paper.

Step 3

Place a magnet underneath the grey and black paper. Put your 'bug' on the other side.

Why not make more bugs and race them!
