

GROW YOUR OWN VEGESAUR!

YOU WILL NEED

Toilet rolls

Seeds

Seed Raising Soil Mix

Plastic container (approx 30cm long)

Children's gloves

Children's garden tools

Children's watering can

Liquid Fertiliser

HOW TO

- 1 Stack the empty toilet rolls into the plastic container, with the open end facing up.
- 2 Fill each toilet roll with Seed Raising Soil Mix leaving 1cm from the top.
- 3 Use your finger to make a little hole in the centre of each toilet roll.
- 4 Carefully drop 1-3 seeds in each hole & recover with soil.
- 5 Cut out the Vegesaur stencils and glue them onto your popsicle sticks. Use them to mark your seeds!
- 6 Water your seedlings with Organic Fertiliser Liquid, it's ok to have a ter 1-2cm up the side of the toilet rolls. Check the water level every other day & water when required.
- 7 Once seedlings have reached a satisfactory size, transplant them into the garden!
