CRIMINOLOGY GETS A COMEDY UPGRADE

Crime Night! is a bold new format that sees an expert team of criminologists and comedians explore the quirks of human behaviour and criminal justice in a surprising, fascinating and fresh panel show for fans of the intriguing world of crime.

Driven by razor-sharp host Julia Zemiro and filmed before a live studio audience who often play unwitting participants in the show, *Crime Night!* dives beneath the surface of crime to discover the science and psychology behind it all.

Each episode explores a different facet of criminology – from eyewitnesses and alibis to surveillance and scams.

As the expert panellists share insightful analysis, and the comedians ask the questions we're all dying to know, *Crime Night!* blends real life cases, witty storytelling and entertaining social experiments that expose the frailties, illusions and delusions of our very human obsession with crime.
