- Science of Sound
- Creative Expression
- Musical Play

PIANO

Rainbow water music!

What you'll need:

- Food Colouring
- Glass Jars/Bottles
- Mallets/Sticks
- Water

Watch the Bicycles episode on ABC iView

Step by Step:

1. Pour water into your glass jars or bottles at various levels
2. Add a different colour of the rainbow to each jar. You can even combine colours to make new colours.
3. Take your sticks or mallet and tap on top of the jar/bottles.

Can you hear a different note when there is more or less water in the jar?
4. Try to make up a melody and put on a show!
