# 72 DANGEROUS ANIMALS 1/2 ASIA

On the biggest, most populated continent on earth, in a land of ancient civilizations and mystical traditions, the 72 Dangerous Animals team embarks on our next extreme adventure - coming face to face with some of Asia's most exotic and extreme creatures.

From mountains and seas, to bustling cities, we explore the powerful hunters, ambush predators and venomous assassins living among billions of locals and millions of holidaymakers.

Our spine-chilling feature creatures include Indonesia's monster Komodo dragon, Japan's giant killer hornets, India's majestic Bengal tiger, deadly sharks, elephants, crocodiles, cobras, bears, honey badgers and Hollywood movie inspiration, the wolverine.

Survivors tell death-defying attack stories, as wildlife experts, conservationists, and an unforgettable cast of local characters reveal each animal's unique characteristics, behaviours, conservation issues, and potential danger to people. We dig into the latest medical and scientific research and unlock the mysteries of Asia's animal folklore and legends.

Set against sensational HD cinematography, pumping full surround sound music tracks, and exciting sports stadium inspired graphics, in every episode competitors are profiled and ranked according to deadly potential; eleven ultimate fearsome finalists then facing off in a gripping grand final showdown.

So settle in for a tour of terror as we enter the fabulous and frightening world of 72 Dangerous Animals to see who will take the title of Asia's most dangerous.
