- Rain Cloud Formation
- Measuring Liquids

STORMS

A storm in the palm of your hand!

What you'll need:

- Recycled jar or bottle
- Effervescent Tablets
- Oil
- Food Colour
- Water

Optional: Glitter, Paint

Watch the Storms episode on ABC iView

Step by Step:

1. Fill your jar or bottle with oil about three quarters full, add glitter to the oil if you would like
2. In a separate container mix the water and food colour
3. Alternatively you can use white paint to create a snow storm
4. Pour the water/colour mixture into the jar or bottle and watch it sink to the bottom
5. Drop the effervescent tablet into the mixture and watch the storm begin to brew
