

Statement from Find My Beach House producers Abode Entertainment:

Abode Entertainment produces Find My Beach House, which is licensed to Channel 9. The show is designed as light entertainment, offering viewers engaging tours of stunning homes. At its core, the series follows a couple's journey, adding a compelling narrative that keeps audiences invested.

To enhance storytelling and ensure a satisfying viewing experience, we sometimes reverse-engineer the house-hunting process. Each episode is based on real property searches and purchases. In some cases, aspects of the home-buying journey have been reconstructed for storytelling purposes. This means the buyers have already purchased their home before filming, and we then showcase additional properties to capture their reactions and insights authentically.

Moving forward we are making the change to include a disclaimer on each episode.
