

Pencil Holder

To create Pencil Holders you will need:
glue, cardboard, paint, black pen, crisp tube, tea box, two
toothpaste tube boxes, paint brush, big bottle top, small bottle top, lids

Step 1
Make the body of the train by placing the toothpaste tube boxes together, the crisp tube on top with the open end at the front and the tea box behind. Finally

Step 2
Put the cardboard on top of the tea box and glue everything together. Then stick the three round lids to side of the train and the bottle tops on the tube to make a chimney and whistle.

Step 3
Paint your train and use a black pen to draw on details.

You can now store your pens and pencils in the front
