CRIME NIGHT!

CRIMINOLOGY GETS A COMEDY UPGRADE

Crime Night! is a bold new format that sees an expert team of criminologists and comedians explore the quirks of human behaviour and criminal justice in a surprising, fascinating and fresh panel show for fans of the intriguing world of crime.

Driven by razor-sharp host Julia Zemiro and filmed before a live studio audience who often play unwitting participants in the show, *Crime Night!* dives beneath the surface of crime to discover the science and psychology behind it all.

Each episode explores a different facet of criminology – from eyewitnesses and alibis to surveillance and scams.

As the expert panellists share insightful analysis, and the comedians ask the questions we're all dying to know, *Crime Night!* blends real life cases, witty storytelling and entertaining social experiments that expose the frailties, illusions and delusions of our very human obsession with crime.

SEASON 1: 6 X 30'

- Each week the panel dissect famous cases to plunge audiences into the heart of the crime world, going 'behind-the-scenes'
- Every episode is peppered with fascinating takeouts
- The 'Experiment of the Week' delivers interactive fun – often including hidden cameras, our comedians, and even the studio audience
- Expert criminologists unpack what the experiment demonstrates, followed by a visit to a crime reporter in the field – who delivers fun facts you won't hear on the podcasts
