*And more inside...*

# HUMANKIND'S BEST FRIEND

Audiences can't get enough of the canine adventures in Ambience Entertainment's *Muster Dogs*; the ABC's standout, slam-dunk summer show delivered the network mass reach and audience joy.

Continuing the puppy love is *A Dog's World* from WildBear Entertainment; exploring and celebrating the unique bond between humans and their furry four-legged friends, this delightful and informative series is likely to 'turn' even the most committed cat person into a dog lover for life.

## MUSTER DOGS

An uplifting story of five adorable pups and their trainers on a journey of discovery, *Muster Dogs* is the highest rating program for 2022 year-to-date on both the broadcast and catch-up service in its home country and is now ready to win hearts and minds...and ratings around the world.

Premiere episode:

- #1 Beats *I'm A Celebrity...Get Me Out Of Here* for #1 entertainment program
- #2 Non-news program after the *Australian Open* (Ash Barty in the semi-final)
- +50% Achieved a 50% audience increase in overnight ratings to 1.4M+
- #1 Factual program on catch-up after first week

Spanning the red earth of the Top End to the green pastures of regional Victoria, *Muster Dogs* is a warm, highly entertaining character-driven series featuring five graziers from across the nation, each of whom has been given a Kelpie puppy from the same litter to train up to be a muster dog. Checking in with the puppies at key milestones, training gurus and mustering experts set challenges and assess the pups' progress. The journey to train these unique dogs is an emotional ride into the farmers' lives and provides a deeper understanding of the unique bond between human and dog.

## A DOG'S WORLD

For many of us, our dog isn't a pet. They are a member of the family. But have you ever stopped to wonder how the lives of dogs and humans became so intertwined? Through genetics, neuroscience, behavioural and physiological research, *A Dog's World* uncovers intriguing evidence that illuminates what makes dogs unique amongst animals, as well as what makes them such unparalleled companions for human beings.

Features interviews with the world's top canine researchers, shining a light on dogs' evolutionary journey, revealing their amazing super senses, as well as providing the practical advice needed to have the happiest and healthiest pooch in the park.
