SOULMATES

This is the story of two kindred spirits trapped in a cycle of death and rebirth with series one exploring reincarnation in four different lifetimes being; Cavemen 50,000 years ago, 1981 Kiwi Assassins, present day Bondi Hipsters and a Travel Time office in 2093.

In each lifetime the characters are different but the two souls are forever drawn together as best mates. They challenge each other, support each other, question each other and have a unique take on the world around them.

50,000 BC

50,000 years ago Rocky and Sticks are exploring life and love together for the first time. The friends are challenged by picking the perfect mate, the morality of eating babies and religious persecution.

1981

In 1981 Australia has for many years been laying claim to New Zealand's patents and protected people of interest. The Ministry of Defence is set up to train two Kiwi Assassins, Roger Blade and Terry Thing, to repatriate a young Russell Crowe and shut down a rogue Fizzy Milk operation that threatens New Zealand's dairy industry.

PRESENT DAY

In the present day, penniless Hipsters Dom Nader and Adrian Archer are struggling to launch their underground fashion label on the catwalks of Bondi. Dom's constant distraction with sex and drugs causes Adrian anxiety and frustration as he forges ahead with developing the business alone.

2093

In 2093 the polar icecaps have melted and Dave and Rob are best mates working together in a Travel Time agency in tropical Antarctica. They dream of their own Time-Tiki Tour pubcrawl throughout time, but their plans are jeopardised when Rob is promoted to management and becomes Dave's boss.
