

Spoon Bugs

To create Spoon Bugs you will need:
clay, paint, spoon, paintbrush, scissors-warning, cotton buds

Step 1
Roll the clay into a small ball then push it onto a spoon.

Step 2
Cut three cotton wool buds in half. Push the halves of the buds into the sides of the clay. When the clay's dry take it off the spoon.

Step 3
Paint your Spoon Bug any colour or pattern you like.
