Response from Sharri Markson,

Unlike the left-leaning figures Media Watch spoke to, who no longer work in mainstream media, I've been inundated with high praise from leading editors and journalists describing the interview as outstanding, first-class and agenda-setting.

Fuelling the dangerous antisemitism crisis is the false narrative, promoted by the ABC, that Israel, and not Hamas, is to blame for Palestinian suffering, so it's important Australians hear from Netanyahu how Israel takes unprecedented measures to avoid civilian casualties and deliver aid.
