

BUILD A SUCCULENT CITY!

GARDENING
AUSTRALIA
JUNIOR

GETTING STARTED:

Have you ever wanted to make your own city? Well, now you can with the help of succulents! It's loads of fun choosing from all the different types of succulents. It's time to get town planning!

- Large container with holes for drainage. You can repurpose containers from around your house. For our cities, we've used old drawers with drilled holes in the bottom. This saves them from landfill so it's a win, win!
- Various succulents and succulent potting mix.
- Safety gear such as masks and gloves. Remember to use tongs for handling any spiky plants.
- Markers, coloured rocks, toys and fairy lights for decoration.

Top tip!
To loosen the soil around succulent roots, tickle them!

WHAT TO DO:

1. Prepare your containers by adding holes to the bottom for drainage.
2. Add your potting mix as a base for your cities.
3. Choose a fun theme to design your city around. We've added some coloured rocks and toys to our cities to suit our themes.
4. After you've got the urban planning out of the way, it's time to add in your plants.
5. You can add some fairy lights to give your cities power!

Time to declare your city open!

Your friends and family will be suckers for your succulent city!
