

Curious Camera Find and Seek!

Time to spot 'cool stuff'! Just like Fizzy and Suds, invite children to notice and delight in the small, fascinating details around them - at home, on a walk, in the park, or anywhere their day takes them.

STEP BY STEP

- Add colours and designs to the camera template.
- Cut around the dotted lines (don't forget the middle).
- Laminate to make the camera last.
- Take it with you on your next community walk and ZOOM IN on all the cool stuff you notice along the way.
- Look, describe and wonder together!
