

31-Aug-2025

Statement from Paul Davies, Campaigns Director Media Entertainment and Arts Alliance,

MEAA consistently fights for press freedom, including for stronger whistleblower protections. The ability of journalists to discharge their duty to the public with integrity requires a free and ethical press, and it is core-union business for MEAA. MEAA has actively taken part in actions through the Right To Know Coalition, and has also made separate submissions to related inquiries including most recently to the Whistleblower protection Authority Bill, 2025 (no. 2) inquiry.
